Dear Hal,

Does this enclosure from Mark's "Alien Agenda" validate your critique of his work as "unreadable trash" and "nuttiness" as per page 84 of "Case Open"?

I would think so! Oddly enough, Kilgallen and Robert Ruark did do good work on the case back in 64/65.

Though it has often been printed, I don't believe Kilgallen did get a private interview with Ruby.

"The J.F.K.'s Brain" states you eloquently addressed but is now given the spin of blaming The Kennedys

Family!

Stay well.

Sincerely,
Ed Williams
